Technical Skills

Languages: JavaScript, TypeScript, C#

Frameworks: React.js, Next.js, Node.js, Express.js, .NET

Databases: PostgreSQL, MongoDB, Redis

Cloud & DevOps: AWS (EC2, S3, RDS, CloudWatch), GitHub Actions

Tools: Prisma, Drizzle ORM, Mapbox, GSAP, Three.js, Socket.io, Linux, Blender, Unreal Engine 5, Figma

Experience

Software Engineer Intern, Agaamin Technologies — Gurugram, India June 2024 – Aug 2024

- Developed and deployed a responsive production website using **React.js**, **Next.js**, and **Tailwind CSS**, increasing user engagement by **40%**.
- Optimized frontend rendering and API consumption, reducing page load times by **45%**.
- Collaborated in Agile sprints using GitHub workflows and pull request reviews, reducing production defects by **25%**.
- Deployed and monitored production builds on **AWS**, improving system uptime and reliability.

Projects

Rentiful — Enterprise Rental Platform

GitHub

- Engineered a multi-role rental platform using **Next.js 15**, **TypeScript**, **PostgreSQL (PostGIS)**, and **Prisma**.
- Designed geolocation-based property discovery using **Mapbox** APIs.
- Integrated role-based authentication with **AWS Cognito** and media storage via **Amazon S3**.

MacBook Parallax Studio

Live Demo

- Engineered an immersive parallax web experience inspired by Apple product pages using **React.js**, **GSAP**, and **CSS 3D transforms**.
- Designed scroll-driven animation timelines to simulate realistic device depth and motion.

BookWise — University Library Management System

Live Demo

- Architected a scalable university library management system using **Next.js**, **TypeScript**, **PostgreSQL**, **Redis**, and **Drizzle ORM**.
- Automated secure authentication flows, caching layers, and transactional email workflows.

GPULytics — Real-Time Monitoring & ML Analytics

GitHub

- Built a real-time telemetry platform using **Python**, **Flask**, **NVML**, and **React** to collect GPU and CPU metrics.
- Developed anomaly detection and ML-based failure prediction pipelines for hardware monitoring.
- Integrated **AWS S3** for time-partitioned storage and **CloudWatch** for automated alerts.

Certifications

- MERN Stack — Hero Vired
- AWS Fundamentals — Coursera

Education

BML Munjal University, B.Tech in Computer Science
CGPA: 7.0

Sept 2022 – Present
